## NEW VIDEOS DISPLAYED ON WEBSITE

Dr. Homon and his office are pleased to announce the addition of new videos to our website, [drhomon.com](http://drhomon.com). Work began on this project in March and the videos were launched in late September. The videos include virtual tours of both offices, patient testimonials, staff testimonials, and introductory videos to our office.

Many hours of hard work went into creation of the videos, and we are very proud of the results. Our videographer, Kirk Dapo of Quality Film Productions in Westerville, was

excellent and we highly recommend him if you are considering any video features for your company.

So, if you noticed film equipment around the office during your last visit, now you know what we have been up to. We want to thank all of our patients who participated in the filming for their help. We especially want to thank our parents and patients who participated in our testimonials for their time and kind sentiments. You can launch the videos directly from our website, and it will take you to our youtube channel, [homonortho](http://homonortho.com).

## KIDSMILES GOLF OUTING

KidSMILES hosted its inaugural golf outing at the end of August at Wedgewood Golf and Country Club. The event was a great success and fun for all who participated.

As part of the event, KidSMILES paired up with former Ohio State Buckeye James Cotton and his charity, Buck-I-con, to promote and raise money for both programs. The Buck-I-con Foundation is dedicated to ensuring that former members of the Ohio State football program have a successful transition upon completing or continuing their education.

*KidSmiles volunteers with James Cotton*

After recruiting over 300 dental volunteers, the KidSMILES clinic will open in June 2012. The golf outing raised more than \$11,000 towards the construction of the Bethel Road office. KidSMILES is a charitable pediatric dental clinic founded by Dr. Homon to make orthodontia affordable for all.

# WHO'S IN THE . . . PATIENT SPOTLIGHT

## **KRISTEN ADKINS**

Kristen led her softball team, Lasers Gold, to a national championship in the USA/ASA Fastpitch National 14u Tournament. Out of thousands of 14u ASA registered teams, only 103 qualified for the national tournament. During the championship series, Kristen pitched a two-hit shutout for the Lasers, striking out five batters and never allowing a base runner past second base in the process. Congratulations Kristen on a striking accomplishment!

## **ANNIE BERNSTEIN**

Since the tender age of 2, Annie has been doing gymnastics. Now age 9, Annie competes as a Level Six gymnast on the Flyers Team at Buckeye Gymnastics. This summer Annie qualified to compete in the USAG Junior Olympics National Championships in San Antonio, Texas. Congratulations on a high flying performance Annie!

## **SHILPA & SWATHI MURTHY**

Shilpa, 14, and Swathi, 12, have both qualified to attend State Science Day, the top science fair competition for middle school students in Ohio. The sisters, who attend Olentangy Hyatts Middle School, both took an individual approach to their science projects. Swathi was struck by the Gulf of Mexico oil spill and the devastating effects it had on the animals who inhabit that region. She tested common household materials such as sawdust and even kitty litter to see which would absorb the most oil. Shilpa was influenced by the growing rates of childhood obesity. So she studied the chemical composition of different foods to determine which foods could help obese children lose weight. What amazing ideas! Great job Shilpa & Swathi!

## **ALEXA & RANDALL DEMYAN**

Alexa and her father Randall participated in the Extreme Makeover Home Edition filmed in Columbus. The episode will not be shown until Christmas Night so a lot of details are being kept secret. They did tell us what an amazing experience it was to see so many people volunteer to help people less fortunate and complete the house in such a short amount of time. Alexa also mentioned how nice the crew members were to the volunteers. The Demyan's received a full tour of the house and they are very excited to have the episode air Christmas night 2011! Good work Demyan family!

## Fun Orthodontic Facts

Have braces? Traveling on an airplane for vacation soon? Don't STRESS!

Have you ever wondered what would happen if you needed to go through a metal detector with your braces? Airports actually use PI metal detectors which send periodic magnetic pulses into the air. When a period of the pulse stops, a reverse pulse is created. If you are carry magnetic material, it will prolong the reverse pulse and set off the alarm.

The good news is that braces will never set off the metal detector for a very simple reason. There is not enough metal in your braces to set the alarm off! Happy Travels!

## Congratulations!
